Thanks Kristine. Please see my notes below (in red font) regarding the status of LWG delivery items, and a few administrative questions related to the scheduling of technical meetings so Jen can get that process going. Thanks, Jim.

Subject: Portland Harbor

Bob and Jim – As I discussed with Jim earlier this week, EPA needs a schedule for delivery of the following work products:

- 1) Core profiles **We are aiming to get these to EPA by next Wednesday (Oct. 29) .**
- 2) FS database **I will double-check with our technical team, but I believe this can be completed within the next few days. I'll email you later today with specifics.**
- 3) Mn information **Windward is aiming to get the revised calcs to Burt by the end of today.**

We also need to set up meetings for the following subjects: **let me know if you agree with the following assumptions regarding length of each meeting, attendees, and whether it should be a conf call or in-person meeting.**

- 1) Food web model for dioxins/furans - preferably next week **I am assuming a one hour conference call with me, you, Bob, Burt, John and Carl.**
- 2) New data for FS database (RM 11E, RM 6E) – preferably week of Nov 3 **I am assuming a one hour conference call with me, you, Bob, Carl and someone from CDM (Todd King?).**
- 3) RI Section 10 (this will probably be a series of meetings) – start meeting preferably next week **I am assuming two in-person meetings, each three hours, with me, you, Bob, Elizabeth, Gene, Karl G. and Carl S. for the inter-relationship with the revised FS, and at least one CDM rep (Todd King?). Does that sound right to you? We will aim to wrap-up these meetings by November 14.**

Let me know if I missed something.

Thanks and have a great weekend!
